

Members' Dashboard

The member's dashboard provides a home for all the useful resources you'll need as a member such as:

- [Club Noticeboard](#)
- Booking onto racing via WebCollect
- Booking onto coaching via WebCollect
- Volunteering with Dutyman
- Information about the club such as opening times, map of the water and safety flags
- [Webcams](#)
- [Live Weather](#)

You can access the member's dashboard by going to the link <https://www.grafham.org/members-dashboard.html> or by going to the website, hovering over **On the Water** at the top of the screen and then **Members' Dashboard**

Once on the dashboard, it should look something like this:

Sat 1 & Sun 2 Feb
BUSA Team Racing Championships
Midlands Qualifier

Webcams

Grafham WebCams

Click on the required image to view the live feed in full screen.

There's 3 webcam views to give you a good view of the water. This is helpful for determining if the conditions are suitable for sailing before you need to leave home. You can also view the safety flag at the coxswain shed on the east webcam to make sure the lake is open for the activity you're planning to do.

If you're not sure what the flags mean, you can see them on the Safety Flags page accessed from the Members' Dashboard or from [this link](#).

Live Weather

Grafham has a live weather station on top of the club house to give useful readings on the current sailing conditions. It provides:

- Wind strength
- Wind gusts
- Wind direction
- Atmospheric pressure

The readings are accurate but they can underread when the direction is from the south and goes over the village so bear that in mind on a windy day.

To see more historical data, head to **On the water** and then **Weather** or [use this link](#) to see previous weather data.
